

Covid-19 Premises Risk Assessment

The Corbett Medical Practice takes the health and safety of our employees, visitors and others who may be affected by our activities seriously. The current COVID-19 pandemic is a particular concern at this time.

We continue to want to support our patients during this difficult time. In line with current government guidance we have completed a COVID-19 risk assessment of our activities and the significant findings of the assessment are:

- We have enhanced cleaning, handwashing and hygiene procedures in line with guidance
- We have taken all reasonable steps to help people work from home
- We have taken all reasonable steps to maintain a 2m distance in the workplace
- Where people cannot be 2m apart, we have done everything practical to manage transmission risk
- We are working to strict NHS guidance when patients are being treated, or assessed by doctors and nurses
- We continue to review risk assessment on a periodic basis and make changes to our working practices where required
